

# CEA's Career Development & Internship Placement Process

CEA's signature placement process is about much more than simply matching you to an internship placement. It's a holistic career exploration experience where you'll work with a career coach to explore and understand what brings you meaning personally and professionally. From there, we'll work with you to reveal what you want to get most out of your CEA Internship and then identify a placement that supports you in accomplishing those goals. The outcome is a meaningful placement that supports you in cultivating the foundational skills you need to get the job you want while capitalizing on the skills you've already developed.
