

# A WEEK IN THE LIFE

## How CEA Interns Spend Their Days Abroad

### SUMMER INTERNSHIP EXAMPLE

**[JULY] MONDAY - FRIDAY:**  
Your elective classes are over so you get to spend more time at work this month! Enjoy a relaxing morning and get yourself to work by 10 am.  
You're back to the office by 1:30 and working through until 6 pm. What adventures await your evenings this month?

**[JUNE] MONDAY - FRIDAY:**  
Your schedule will be a steady stream of classes, commuting to your internship site, and lunch with friends at local spots.  
While your weekdays may be a balancing act, you'll find ways to enjoy the new places and people that brought you here while learning the ropes of a foreign work environment.

### SEMESTER INTERNSHIP EXAMPLE

**MONDAY - THURSDAY:** These are the days to be a full-time student and a professional. You'll balance coursework and your professional life as you gather new insights with other students—both in the classroom and out—and integrate what you've learned at school into internship projects that support the success of your host organization.

**FRIDAY:** First, wrap up your coursework and internship hours. Then, pack your bags and join friends to check off items on your sightseeing list.
